

Rockville *Works* for me

"Our location is close to where our employees live and just a short drive to visit our DC and Northern Virginia clients."

WFT Engineering is a Rockville-based, award-winning design firm providing an array of engineering services in the local metropolitan area for the past 22 years. Our firm typically designs MEP/FP systems for over 1,000,000 sf of tenant interior space each year as well as for complex base building projects.
